

Wethersfield Academy for the Arts

A Sense of Place

More than ever, our lives need art - to inspire us, to captivate us, and to provide a sense of place in a changed world. With this in mind, the Wethersfield Academy for the Arts challenged artists to render their interpretations of "A Sense of Place". We encouraged the artists to plan the meaning of their painting, and to enter up to three paintings of artwork reflected in a specific place in location, time, issues and signators of that time, without limitation as to landscape, portraiture or still life.

Keep Art Alive!

This art exhibit, Sept. 29 - Oct. 11, 2020, begins with a **Keep Art Alive Event** on Sept. 29. It is a donation based first opening. With COVID protocols, the dinner event with Peter Trippi, Fine Art Connoisseur editor speaking on "Where We Are: Contemporary Realism" and announcing the winners. We then go across the street to the private first viewing of the artwork, meet artists and enjoy some bubbly and dessert. This is a limited seating event and we are sending you this special invitation in hopes you will attend.

The proceeds for the events planned will go toward high quality art instruction, limited public art gatherings and scholarships for children. If you are unable to attend, please consider making a commensurate donation - it's for a good cause!
